PROTECT

About Company

Protect Pest Control Services was established in 2012 with a clear vision: to provide reliable, science-based pest management solutions that uphold the highest standards of safety, hygiene, and professionalism.

Over the years, Protect has earned recognition as a trusted name in the pest control industry, serving a wide range of residential, commercial, and industrial clients. Our services are built on regulatory compliance, guided by global best practices, and executed by a team of trained, experienced, and uniformed professionals.

We are fully **government certified** and hold all required operational licenses, including Trade License, TIN, BIN, Fire License and **Pest Control License- 510**, which allow us to operate legally and confidently across multiple sectors.

Our core strength lies in **integrated pest management (IPM)** strategies using WHO- and EPA-approved products that are safe, effective, and environmentally responsible. Whether through one-time treatments or long-term service contracts, we provide tailored solutions to help clients maintain clean, safe, and pest-free environments.

Driven by quality, powered by experience, and trusted by regulation—Protect Pest Control Services continues to protect what matters most.

Protect Pest Control Services is committed to delivering honest, careful, and responsible pest control solutions. Our trained and dedicated team uses safe, modern, and government-approved methods to ensure effective pest management while maintaining the highest standards of safety and professionalism.

We strongly believe in eco-friendly practices, using environmentally responsible treatments that protect not only your property but also your health and surroundings. Our goal is to create a clean, comfortable, and stress-free environment where you and your family or employees can live and work with peace of mind.

If pests have made your life stressful, there's no need to worry—you're not alone. From minor infestations to serious pest problems, we are always ready to respond quickly and effectively. We treat every client's home or business with the same care and attention as our own, ensuring reliable and long-lasting results.

At Protect Pest Control Services, customer satisfaction is our top priority. Our team is always prepared to assist you with prompt service, expert advice, and dependable solutions tailored to your needs. All you need to do is give us a call, and we will take care of the rest—protecting your home with professionalism, care, and commitment.

PROTECT

MARUFA KHAN

Managing Director of the Company

Welcome **Message**

It is my great pleasure to welcome you to **Protect Pest Control Services**. As the Managing Director, I take immense pride in the journey we have embarked upon to become a trusted name in pest management solutions.

Since our inception, our mission has been clear: to protect homes, workplaces, and communities from health and safety hazards posed by pests—while upholding the highest standards of service, safety, and environmental responsibility. We understand that pest control is more than just a service; it is a vital part of safeguarding public health and ensuring peace of mind.

At **Protect**, we combine science-driven methods with modern, eco-friendly technologies to provide effective, long-lasting pest control. Our team of trained professionals is committed to delivering quality service tailored to each client's unique needs—whether residential, commercial, or industrial.

Our success has always been rooted in the trust of our clients and the dedication of our team. We continually invest in our people, processes, and innovations to exceed expectations and set new benchmarks in the industry.

Thank you for considering **Protect Pest Control Services**. We look forward to being your reliable partner in creating a cleaner, safer, and pest-free environment.

Vision & Mission

Vision

To become the leading pest control company in Bangladesh, recognized for delivering safe, sustainable, and effective pest control solutions in Dhaka, Chittagong, Cox's Bazar, Sylhet, Khulna, Rajshahi, and beyond. We aim to create a healthier, pest-free environment for every home, business, and industry by combining innovation, expert care, and eco-friendly practices.

Mission

At **Protect Pest Control Services**, our mission is to provide professional, affordable, and environmentally safe pest management services tailored to the unique needs of each client **across Bangladesh**.

We are committed to protecting health, property, and the environment through science-based solutions and strict adherence to national and international safety standards.

Our goal is to deliver lasting results with minimal disruption, earning the trust of our clients through reliability, transparency, and consistent service quality.

We strive to be a responsible partner in creating cleaner, safer, and pest-free environments for homes, businesses, and industries.

Milestone

Protect Pest Control Service – Professional Milestones (2023–2025)

2023

Protect Pest Control Service was established in 2012 with the goal of providing safe, eco-friendly, and effective pest management solutions for both residential and

commercial clients. In the beginning, the company focused on building a skilled service team and introducing modern pest control techniques to ensure reliable and professional service delivery. By 2023, Protect Pest Control Service had successfully served a growing number of households and small businesses, laying a strong foundation in the pest control industry.

2024

In 2024, the company expanded its services to include cockroach control, rodent control, mosquito control, bed bug removal, and general insect management.

Protect Pest Control Service also strengthened its brand presence through digital platforms and its official website, www.protectpestbd.com, allowing more clients to access professional pest control solutions. With a focus on quality, safety, and customer satisfaction, the company continued to grow its client base and improved service standards using modern equipment and eco-friendly treatment methods.

2025

By 2025, Protect Pest Control Service achieved significant growth in both residential and commercial service contracts. The company enhanced its professional

operations by introducing improved service documentation, service cards, and organized customer support systems. Through consistent service quality and dedication to long-term pest management solutions, Protect Pest Control Service has continued to build a strong reputation as a trusted pest control provider in Bangladesh.

PROTECT

TERMITE CONTROL SERVICE

Protect Pest Control Services provides comprehensive and reliable termite control solutions for residential, commercial, and industrial properties. Termites are one of the most destructive pests, causing severe damage to wooden structures, furniture, flooring, and even foundations if left untreated. Our certified and experienced technicians use advanced, government-approved, and eco-friendly treatment methods to effectively detect, eliminate, and prevent termite infestations.

[More details](#)

OUR SERVICE

- Pre-Construction Treatment
- Post-Construction Treatment

Our integrated termite management techniques include liquid soil treatments, baiting systems, and barrier applications to eliminate termites at all life stages, including workers, soldiers, and queens. We also provide preventive recommendations and monitoring solutions to protect your property from future infestations, ensuring long-term safety and structural integrity.

Using low-toxicity and environmentally responsible solutions, our services are safe for families, employees, and sensitive environments while delivering highly effective results. Protect Pest Control Services is committed to not only removing existing termite problems but also providing lasting protection, peace of mind, and a secure, pest-free environment for your property.

COCKROACH CONTROL SERVICE

We
Safeguard
Your Home
from Pest
Infestation

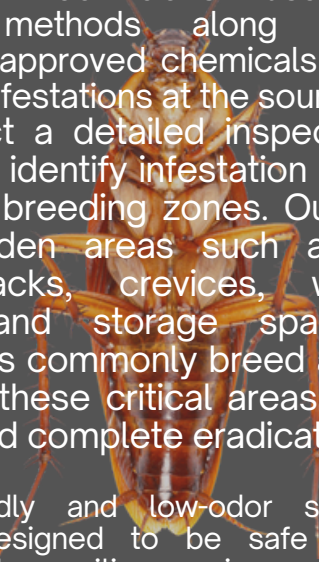

YOUR PEST SOLUTION

Say goodbye to pesky invaders with Protect Pest Control, your trusted partner in pest control.

Protect Pest Control Services provides effective and reliable cockroach control solutions for residential, commercial, and industrial environments. Our trained and experienced technicians use advanced treatment methods along with safe, government-approved chemicals to eliminate cockroach infestations at the source. We conduct a detailed inspection of the premises to identify infestation levels, entry points, and breeding zones. Our treatment targets hidden areas such as kitchens, drains, cracks, crevices, wall voids, cabinets, and storage spaces—where cockroaches commonly breed and hide. By addressing these critical areas, we ensure thorough and complete eradication.

Our approach combines gel baiting, residual spraying, and targeted treatments to effectively control cockroaches at all life stages, including eggs, nymphs, and adults. We also focus on sanitation advice and preventive measures to reduce the chances of re-infestation.

Using eco-friendly and low-odor solutions, our services are designed to be safe for families, employees, and sensitive environments such as restaurants, offices, and healthcare facilities. We follow strict safety standards during application and provide post-service guidance to maintain long-term results.

Our goal is not only to eliminate current infestations but also to provide long-lasting protection, ensuring a clean, hygienic, and pest-free environment. With a commitment to quality service and customer satisfaction, Protect Pest Control Services is your trusted partner for professional cockroach control solutions.

Protect

BED BUG CONTROL Service

Protect Pest Control Services provides effective and reliable bed bug control solutions for residential, commercial, and hospitality environments. Our certified and experienced technicians use advanced treatment methods and safe, government-approved chemicals to eliminate bed bug infestations at the source.

We conduct a thorough inspection to locate bed bugs, their eggs, and hidden hiding spots, including mattresses, bed frames, furniture, carpets, cracks, and crevices. By targeting these areas, we ensure complete eradication and prevent the spread of infestations.

Our treatment combines heat, chemical, and targeted residual applications to eliminate bed bugs at all life stages. We also provide guidance on preventive measures to reduce the risk of reinfestation, such as proper bedding maintenance, furniture checks, and hygiene practices.

Using eco-friendly and low-odor solutions, our services are safe for families, staff, and guests while ensuring minimal disruption to daily life. Our goal is not only to remove current infestations but also to provide long-lasting protection, ensuring a clean, safe, and bed bug-free environment.

PROTECT

RODENT CONTROL SERVICE

Protect Pest Control Services delivers comprehensive and reliable rodent control solutions for residential, commercial, and industrial environments. Rodents such as rats and mice are highly destructive pests that not only damage electrical wiring, furniture, and stored goods but also pose serious health risks by spreading diseases and contaminating food and surfaces.

Our certified and experienced technicians begin with a detailed site inspection to assess the level of infestation, identify entry points, nesting zones, and food sources. Based on this assessment, we develop a customized and targeted treatment plan to ensure effective and long-lasting control.

We utilize a combination of modern tools and proven techniques, including professional-grade bait stations, mechanical traps, and monitoring systems. Where necessary, controlled application of government-approved rodenticides such as zinc phosphide and aluminum phosphide is carried out strictly by trained professionals, following all safety and environmental guidelines.

Our service approach is designed not only to eliminate existing rodent activity but also to prevent recurrence. By sealing entry points and improving site conditions, we ensure long-term protection and maintain a safe, hygienic, and rodent-free environment.

With a strong commitment to safety, quality, and customer satisfaction, Protect Pest Control Services stands as a trusted partner for professional rodent management solutions.

Our Service Approach

1. Inspection

Comprehensive assessment to identify infestation sources, entry points, and risk areas.

2. Elimination

Application of targeted treatments using safe, effective, and industry-approved methods.

3. Exclusion

Sealing and structural modifications to block rodent access routes.

4. Prevention

Implementation of hygiene recommendations and monitoring systems to ensure long-term protection.

Rodent Elimination Process

1. Strategic Baiting

Placement of secure and tamper-resistant bait stations in key locations to effectively control rodent populations.

2. Professional Trapping

Use of mechanical traps and glue boards to safely capture rodents in sensitive and high-activity areas.

3. Controlled Chemical Application

Careful and regulated use of approved rodenticides under expert supervision to ensure safety and effectiveness.

4. Habitat Management

Identification and removal of nesting areas, food sources, and conditions that support rodent activity.

5. Access Control (Proofing)

Sealing of cracks, gaps, and entry points to prevent rodent re-entry and future infestations.

Protect

Mosquito Control Services

Expert Solutions for a Mosquito-Free Environment

At Protect Pest Control Services, we provide advanced and reliable mosquito control solutions to ensure a safe, healthy, and mosquito-free environment. Mosquitoes are not only irritating but also dangerous carriers of diseases such as dengue, malaria, and chikungunya. Our expert team uses modern techniques and approved products to effectively control and prevent mosquito infestations.

Our Control Methods

- **Environmental Management** – Eliminating stagnant water and improving sanitation
- **Chemical Control** – Safe and government-approved insecticides
- **Biological Control** – Eco-friendly and sustainable solutions

Our Professional Approach

1. Inspection & Risk Assessment

Our trained technicians conduct a detailed inspection to identify mosquito breeding sources such as stagnant water, drains, rooftops, gardens, and hidden water containers.

2. Larval Control (Source Treatment)

We apply effective larvicides directly to breeding sites to eliminate mosquito larvae before they develop into adults.

3. Adult Mosquito Control

Using advanced spraying and fogging methods, we target and eliminate adult mosquitoes in both indoor and outdoor environments.

4. Prevention & Monitoring

We provide expert recommendations and continuous monitoring to prevent re-infestation and ensure long-term control.

Service Coverage

We provide mosquito control services for:

- Residential homes & apartments
- Commercial offices & buildings
- Hospitals & educational institutions
- Factories, warehouses & industrial areas
- Outdoor and high-risk zones

Service Coverage

We provide mosquito control services for:

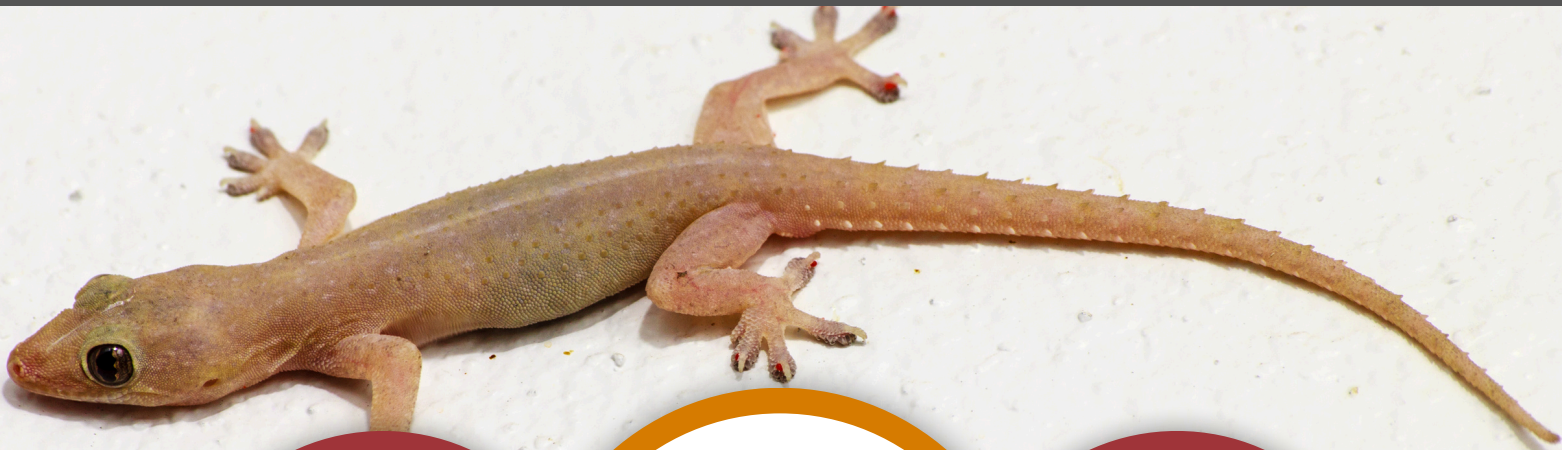

- Residential homes & apartments
- Commercial offices & buildings
- Hospitals & educational institutions
- Factories, warehouses & industrial areas
- Outdoor and high-risk zones

- ✓ Comprehensive Pest Inspections
- ✓ Residential Pest Control
- ✓ Commercial Pest Solutions

At Protect Pest Control Services, our mission is to deliver professional, safe, and result-oriented mosquito control services that ensure a clean, healthy, and mosquito-free environment for our clients. We are committed to using government-approved, eco-friendly solutions combined with modern technology and expert techniques to effectively eliminate mosquito threats at their source. Our focus is not only on immediate results but also on long-term prevention through proper inspection, treatment, and continuous monitoring. We strive to exceed customer expectations by providing reliable, efficient, and affordable services, ensuring complete satisfaction, safety, and lasting protection against mosquitoes for both residential and commercial spaces.

SPIDER AND LIZARD CONTROL SERVICES

Unwanted spiders and lizards can disrupt comfort and create an unhygienic living or working environment. Protect Pest Control Services offers specialized spider and lizard control solutions designed to eliminate infestations and prevent their return—safely and effectively.

Spiders often build webs in corners, ceilings, and hidden spaces, while lizards are attracted by insects and shelter within walls, cracks, and dark areas. Our expert team understands their behavior and uses targeted strategies to control both pests efficiently.

Our Treatment Process

Site Inspection & Risk Analysis

We carefully inspect your property to identify infestation zones, entry points, and environmental factors that attract spiders and lizards.

Targeted Control Application

Our technicians apply professional-grade treatments in affected areas such as ceilings, wall corners, behind furniture, and external perimeters to eliminate spiders and deter lizards.

Food Source Reduction

Since lizards depend on insects, we control insect populations to break the food chain and naturally reduce lizard activity.

Proofing & Exclusion

We seal gaps, cracks, and openings to stop pests from entering your premises.

Control Techniques We Use

- Residual spray treatment for long-lasting protection
- Repellent-based solutions for lizard control
- Web removal and sanitation
- Crack and crevice treatment
- Entry point sealing and habitat modification

Safe & Professional Service

- All treatments are carried out using eco-friendly, low-odor, and approved chemicals, ensuring safety for residents, employees, and pets. Our methods are designed to be effective without disrupting your daily activities.

Long-Term Prevention

Our service goes beyond elimination. We help maintain a pest-free space by:

- Reducing insect attraction through proper lighting and hygiene
- Advising structural improvements
- Providing routine monitoring recommendations

- ✓ Spider Control
- ✓ Lizard Control
- ✓ Ticks Control
- ✓ Silverfish Control

- Protect Pest Control Services is committed to delivering dependable, safe, and long-lasting solutions—so you can enjoy a clean, comfortable, and pest-free environment.

PROTECT

FUMIGATION SERVICE

Protect Pest Control Services offers reliable and professional fumigation services across Bangladesh for residential, commercial, and industrial properties, including homes, offices, factories, and warehouses. Our certified and experienced team utilizes advanced fumigation techniques along with government-approved, eco-friendly chemicals to ensure safe and effective pest elimination.

We specialize in controlling a wide range of pests, including termites, bed bugs, cockroaches, stored-product insects, and other harmful infestations. Our fumigation process is carefully planned and executed to penetrate deep into cracks, crevices, furniture, storage areas, and structural voids—ensuring complete eradication of pests at all life stages.

Before each treatment, our experts conduct a detailed site inspection to identify infestation sources and determine the most suitable fumigation method. We follow strict safety protocols to protect occupants, food products, and sensitive materials during the treatment process. After fumigation, we also provide proper ventilation guidance and preventive recommendations to minimize the risk of re-infestation.

Our goal is not only to eliminate existing pest problems but also to create a clean, safe, and healthy environment for our clients. With a commitment to quality service, customer satisfaction, and long-term pest prevention, Protect Pest Control Services stands as a trusted partner for effective fumigation solutions in Bangladesh.

PROTECT

How We Work?

1 Inspect

We start with a complete inspection of the property to identify the type of pest, the level of infestation, and the areas that are most affected. Our experienced technicians carefully check hidden places such as walls, corners, kitchens, storage areas, and entry points to find the root cause of the problem.

2 Plan

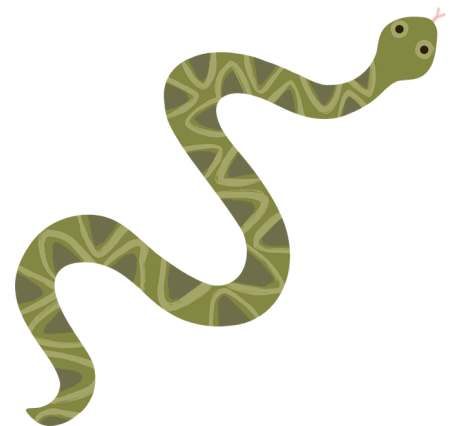

After the inspection, we prepare a customized treatment plan based on the condition of the property and the specific pest problem. We select the most effective and eco-friendly treatment method to ensure safe and reliable results.

3 Treat

Our trained and certified team then carries out the treatment using modern equipment and approved chemicals. We follow professional safety standards to ensure the service is safe for your family, employees, and the environment while delivering maximum effectiveness.

4 Protect

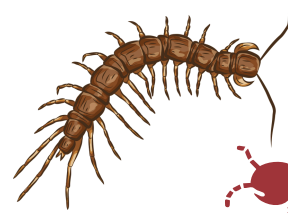

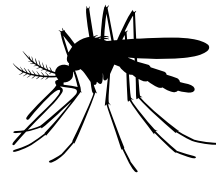

Finally, we provide preventive measures and expert advice to stop pests from coming back. We also offer regular follow-up services and maintenance plans to ensure long-term protection and peace of mind.

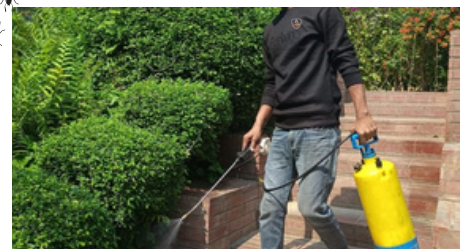

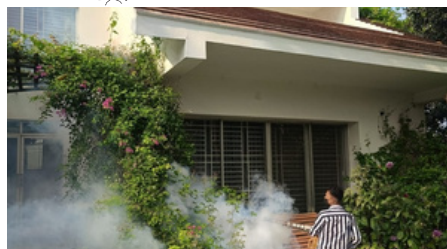

PROTECT

Our Project

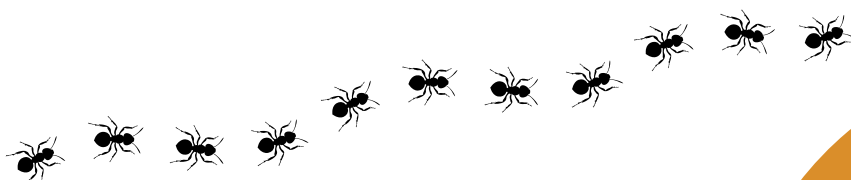

Protect Pest Control Services has successfully completed a wide range of pest management projects across residential, commercial, and industrial sectors. Our recent work includes effective treatment for termites, cockroaches, rodents, and bed bugs using safe and modern techniques. We are committed to delivering reliable, eco-friendly solutions with proven results, ensuring customer satisfaction and long-term protection.
